

# Hristina Ćirović

Frontend developer

I am a frontend developer eager to explore and learn more about programming. I am open to training and can work well both in teams and individually. I have strong organizational skills and am resourceful in various situations. I'm excited to work on real-world projects and learn new technologies. I enjoy reading articles and blogs about programming.

## Technical Skills

- **HTML, CSS3** (Flexbox & Grid), **JavaScript**
- **React.js** (Hooks, Context API, Redux, Authentication: JWT),
- **React Native**,
- **Angular** (two-way data binding, directives)
- **Chakra UI, Material UI, TailwindCSS**
- **Git, GitHub, Jira, Postman**
- **Figma, Adobe Photoshop**

## Work experience

### Internship - Frontend Developer, Quantox Technology

September 2021 – February 2022

- Assisted in the development of web applications, gaining experience in HTML, CSS, and JavaScript.
- Started working with Figma to create and integrate design elements into web pages.

### Frontend Developer (Internship), Quantox Technology

March 2022 – July 2022

- Contributed to frontend development tasks with React.js and JavaScript.
- Implemented interactive features and optimized user interfaces for performance and accessibility.
- Integrated designs from Figma into web pages and worked with responsive design frameworks such as TailwindCSS, Material UI, and Chakra UI.
- Participated in code reviews and contributed to documentation.

### Frontend Developer, Serengeti d.o.o.

August 2022 – July 2024

- Developed and maintained complex frontend applications using React.js, React Native, and Angular.
- Collaborated with backend developers and designers to deliver scalable solutions for various projects.
- Managed state and created reusable components such as forms and tables.
